

# NARBERTH SURGERY

## **ECO4 Flex:**

“Evidence of an occupant whose health conditions may be impacted further by living in a cold home. These health conditions may be cardiovascular, respiratory, immunosuppressed, or limited mobility related”

The Council will require the following household/applicant information from the approved providers/installers: client name, address, supporting evidence and referral route (this may include special category data such as information on certain health conditions) in order to determine household eligibility, it does not state that there is a requirement for the ECO4 to be completed by your GP.

The practice will provide you with a summary of your medical history as supporting evidence if required

**GP Partner: Dr V Fleming, Dr H Wang, Dr P Crawford, Dr N Welch, Dr P Graves, Dr C Lewis**

**Salaried GP: Dr J Milne**

**Northfield Road, Narberth, Pembrokeshire, SA67 7AA.**
