

Have you moved out of our practice area?

If **we have been informed** that you may currently be living outside of our practice area, **this may mean you will be deregistered from our practice.**

Living away at university?

Even if your move is temporary, you will still need to register with a local GP practice close to where you are currently living, so you can access timely medical care.

Returning home?

If you return home briefly or move back permanently, you may re-register with our practice as a full patient, provided you live within our practice boundary.

Check your address

If you believe the address we hold is incorrect, please provide proof of address **within one month** of this notice. If we do not receive confirmation, we will instruct NHS Shared Services to remove you from our practice list.

Your medical records will follow you

This is not intended to cause inconvenience. Your medical records will follow you, so your continuity of care will not be affected.

If you have any questions,
please contact the practice.

*Thank you for
your understanding.*
